-
- Dental surgeon with a three-year dental implant residency, encompassing hard and soft tissue reconstruction, including bone expansion, ridge augmentation, sinus augmentation, and other bone grafting procedures.
 - Extensive training in oral surgery from simple to complex exodontia, pre-prosthetic surgery, periodontal surgery, endodontics and endodontic surgery.
 - ACLS trained and certified, including oral and intravenous sedation techniques critical to predictably managing care for medically compromised and neurologically impaired patients, highly apprehensive/phobic patients, and patients requiring lengthy appointments.
 - Expert witness services for plaintiff and defense cases, including trial testimony experience.

Volunteer Work

Aloha Medical Mission: Provided volunteer oral surgical and prosthodontic services to the impoverished adolescents of General Santos, Philippines, who were afflicted with cleft lip/palate anomalies. A collaborative effort provided oro-facial reconstruction and rehabilitation was provided by the Mission's team of dental surgeons, anesthesiologists, general surgeons, plastic surgeons, nurses, and pharmacists.

American Academy of Implant Dentistry: Served as examiner for credentialing examination for those dentists seeking Associate Fellow and Fellow certifications, May 2015.

Public Seminars: Provided regular dental implant presentations to increase public awareness at local community centers, libraries and town halls.

Pinellas County Dental Assisting Vocational School, St. Petersburg, FL: Provided dental services including routine operative care and extractions.

St. Petersburg College School for Dental Hygiene, St. Petersburg, FL: Invited and agreed to lecture to second year dental hygiene students on topics of implant-related oral disease and dental implant hygiene.
